Enhanced for the ultimate in speed and reliability.

fi-6140/fi-6240

## High Performance Color Duplex Scanners

The fastest and most advanced scanners in their class*.

- ▶ Fast, 60 ppm/120 ipm scanning in monochrome and grayscale

- ▶ Best in class 300 dpi color scanning at 40 ppm/80 ipm

- ▶ First scanners in their class to offer Intelligent MultiFeed Function (iMFF) as well as advanced Paper Protection technology

- ▶ Robust 50-page Automatic Document Feeder (ADF) with enhanced hard and embossed card scanning (Example: credit or healthcare cards)

- ▶ Comes with Kofax® VRS® Professional, Adobe® Acrobat® Standard, and ScandAll Pro

- ▶ One-year Limited Warranty with available Advance Exchange program

* The fi-6140/fi-6240 belongs to the class of A4 ADF color scanners whose scanning speeds meet or exceed 40 ppm / 80 ipm (color, A4, 200 dpi). This statement stood true as of October 2007

High Performance Color Duplex Scanners

The Fujitsu fi-6140 and fi-6240 scanners bring high performance and advanced features in a compact design

In addition to the fi-6140 scanner being the smallest scanner in its class, both models are able to scan an impressive 60 pages or 120 images per-minute in Monochrome or Grayscale (Letter @ 200dpi) as well as 40 pages or 80 images per-minute in Color (Letter @ 300dpi). Furthermore, the Fujitsu fi-6140 and fi-6240 models are the first scanners in their class to adopt high-end "fi series" functions such as:

• Paper Protection technology: Protects valuable documents by halting the scanning process when it recognizes that a jam is about to occur.
• Intelligent MultiFeed Function (iMFF): Simplifies pre-scanning preparation and improves efficiency by ignoring documents that trigger false multi-feed alerts such as an attached receipt or sticky note.
• Intelligent Capture Correction Function (iCCF): Auto-color recognition, auto-size detection, and auto de-skew correction provides dramatic efficiency by combining fast scanning with simultaneous high speed image processing.

Along with ultrasonic double-feed detection, long document scanning (up to 10 feet), dual interfaces (ultra SCSI and USB 2.0), and embossed card scanning, these scanners can continuously feed up to 3 hard cards (up to 1.4 mm thick) through the Auto Document Feeder (ADF).

Fully Loaded One Box Solution.

The Fujitsu fi-6140 and fi-6240 scanners conveniently include everything in the box to get organizations up and scanning. With the full version of Kofax VRS® Professional, Adobe® Acrobat® Standard, and ScandAll Pro software, users get image enhancement functionality as well as the option of scanning directly to PDF, file, print or batch. And the one-year Limited Warranty, along with eligibility for the Fujitsu Advance Exchange Program, provides peace-of-mind. [1] Maximum output resolutions may vary, depending upon the size of the area being scanned and whether the scanner is scanning in simplex or duplex.
[2] Scanning limitations brought about by scanning mode, document size and available memory may occur when scanning at high resolutions (600dpi or higher).
[3] Actual scanning speeds are affected by data transmission and software processing times.
[4] JPEG compressed figures.
[5] Maximum capacity varies, depending upon paper weight.
[6] Supports ISO7810 embossed cards
[7] Able to digitize cards that are up to 1.25mm thick when scanning in monochrome at 200dpi (60ppm).
[8] Capable of scanning up to 3 cards at a time. (Note: does not support multi-embossed card feeding.)
[9] Ultra SCSI interface cannot be used simultaneously with USB2.0.
[10] Excluding the ADF paper chute and stacker
